

BASE COLOR
Lime
JUST ADD
Fuchsia,
Turquoise

In less able hands, bright colors such as the ones in this room by **Deb Reinhart** (debreinhardt.com) might seem childish. But when combined in sophisticated accents, fuchsia, turquoise, and lime evoke just the right sense of fun. Maintaining a roughly equal representation of each member of this trio is the key to pulling it off.

“This color combination reminds me of a rain forest I visited on Vancouver Island—I just love the brightness and the balance of it. I think this is an inviting room that would suit lots of tastes.”

—Deb Reinhart
